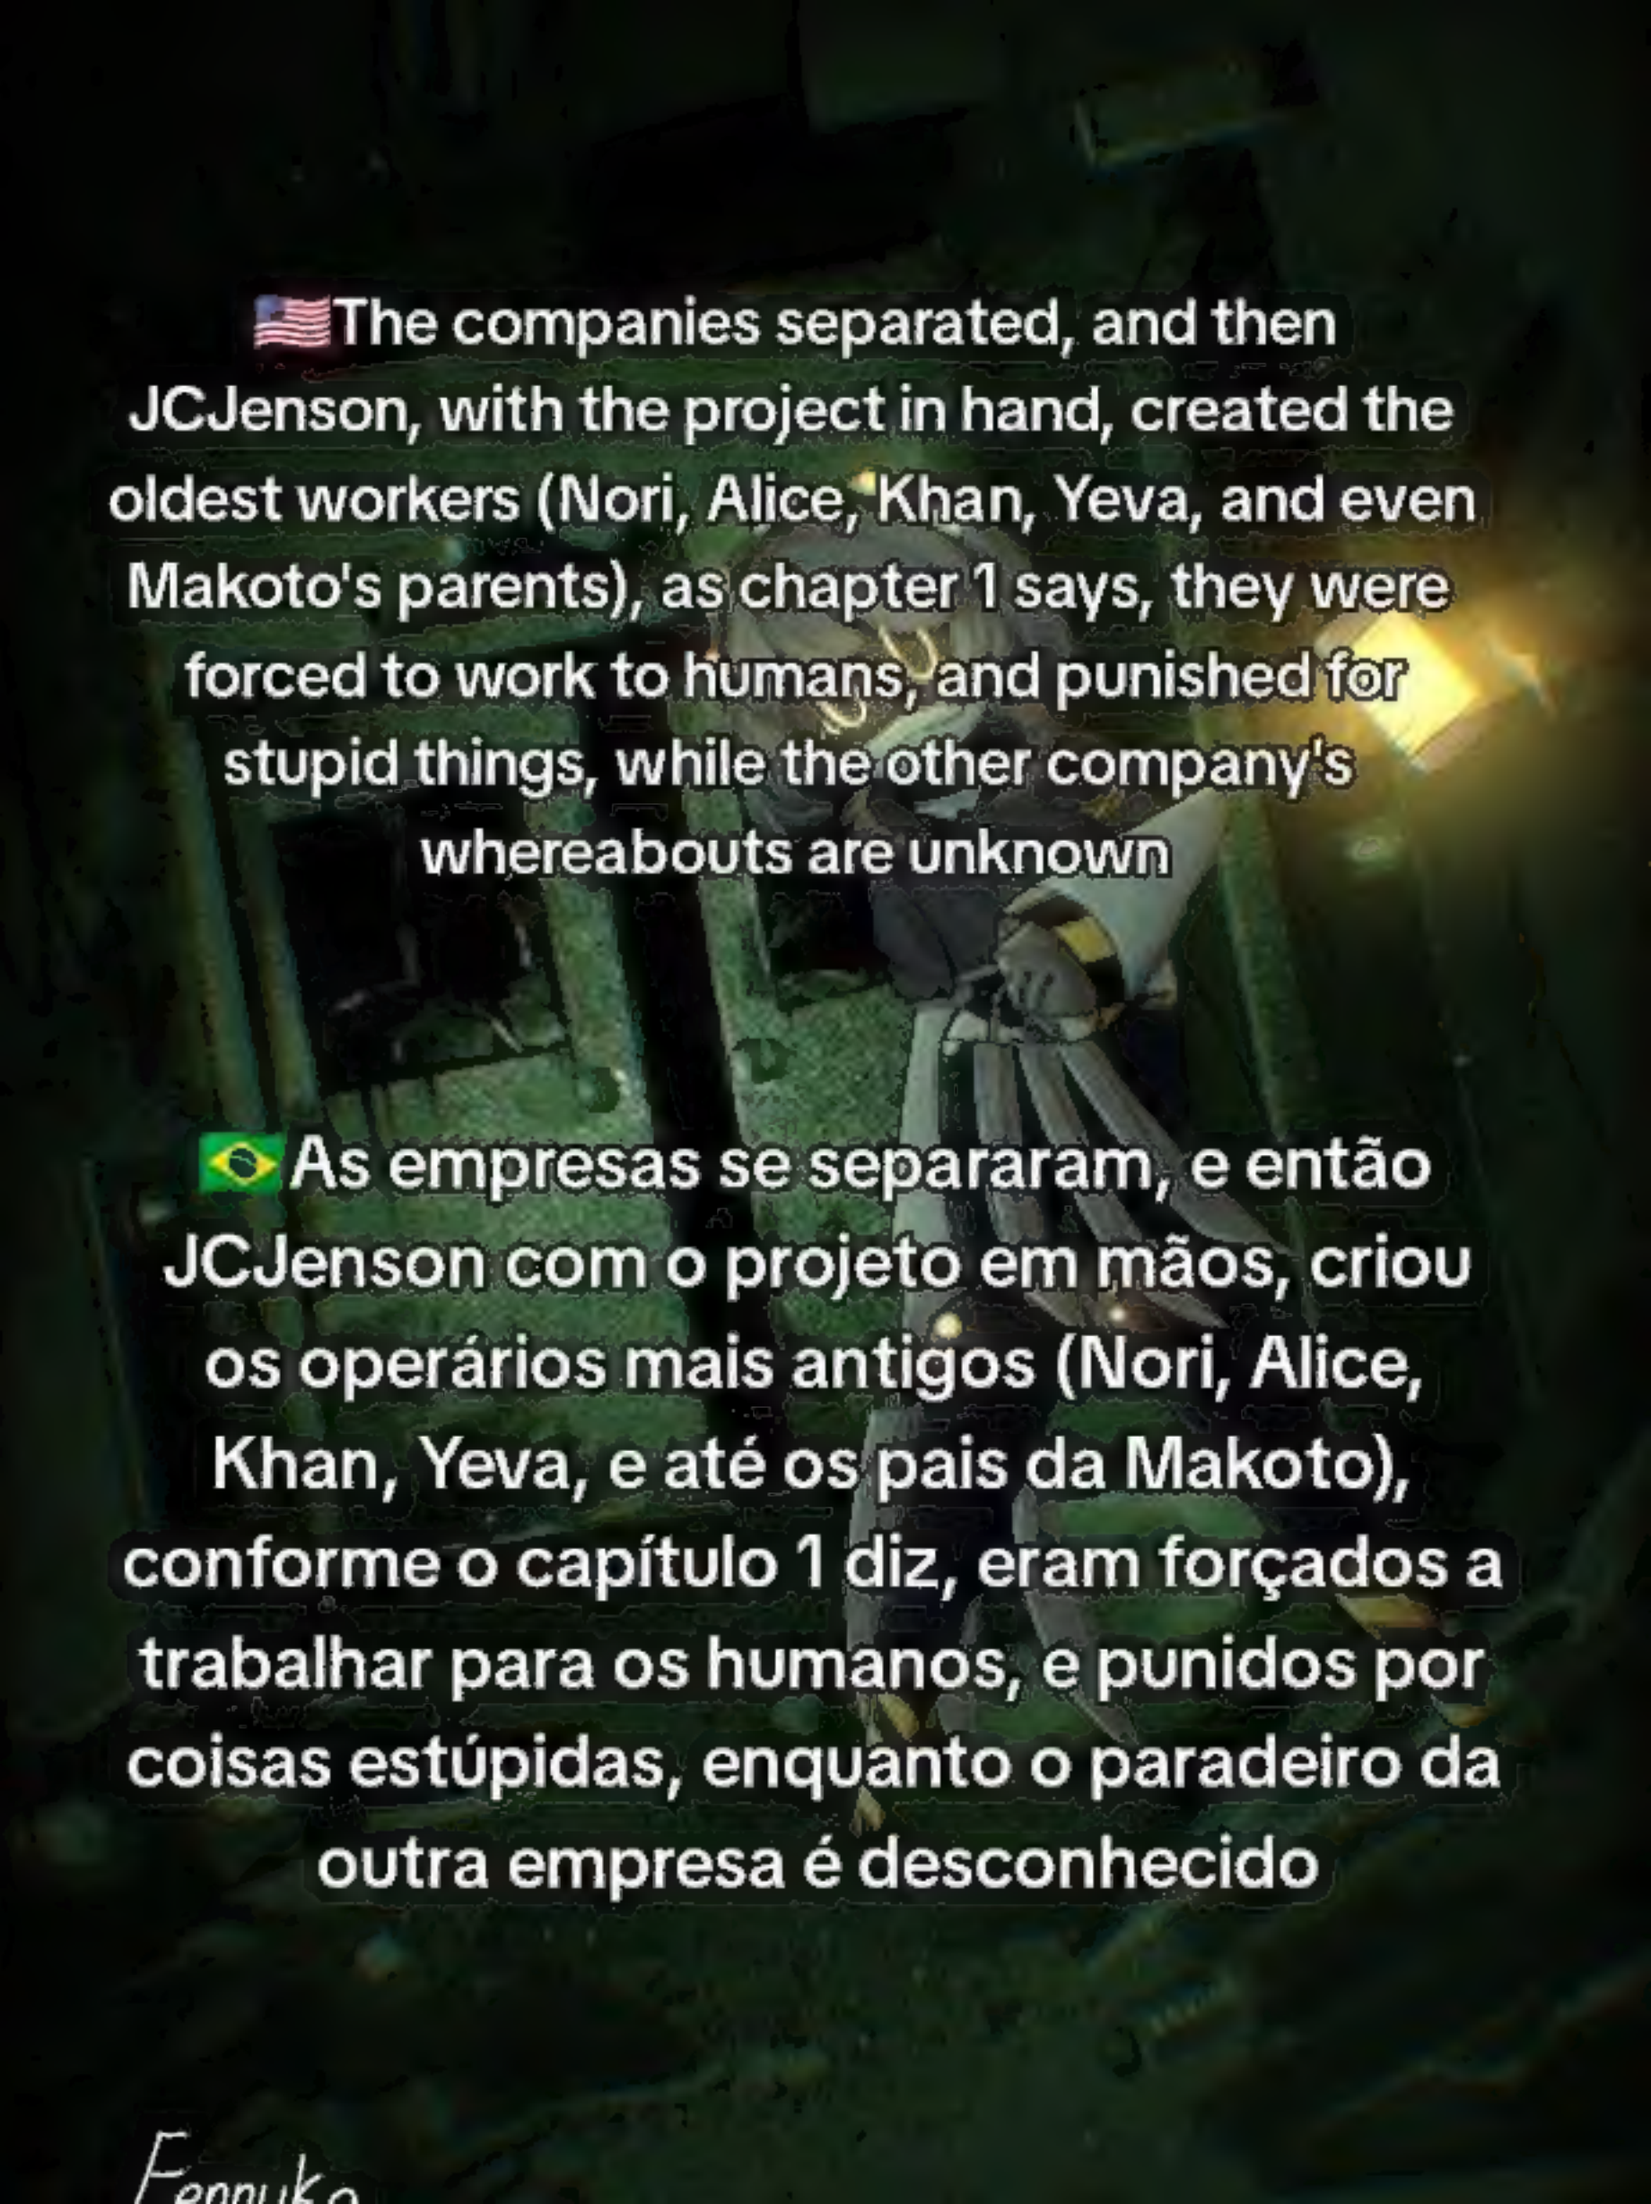
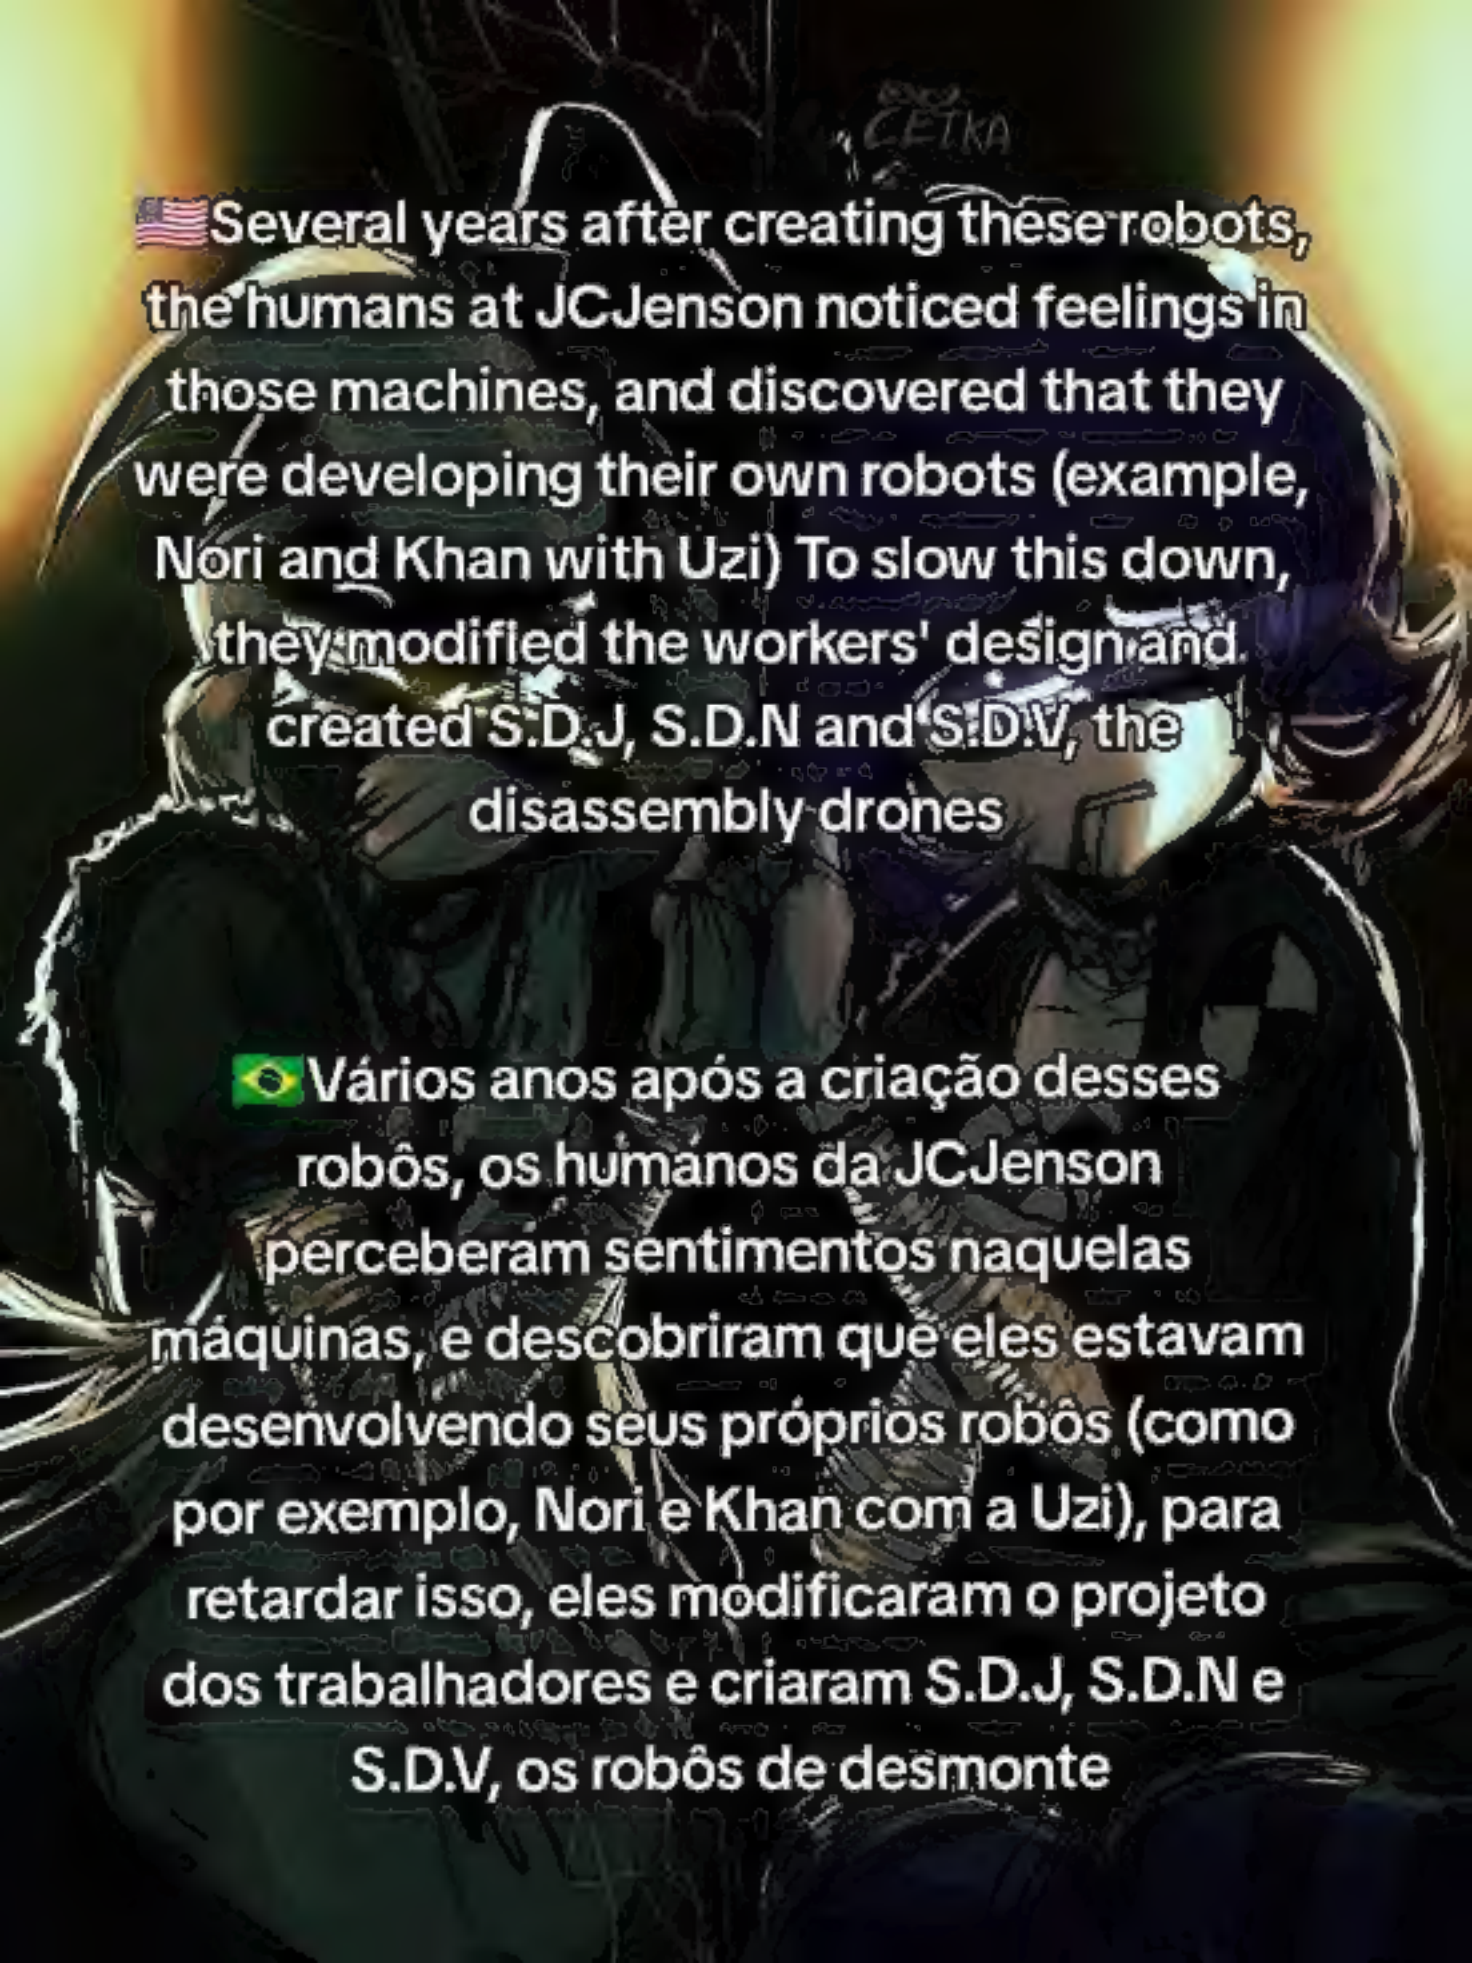
N... You're scaring me...

🇺🇸Two companies are involved in all this, JCJenson (which here owns the humans) and an unknown robotics company, these two companies got together and created the first project for a worker drone,and out of pure greed, JCJenson took over the project that until then belonged to the other company

🇧🇷Duas empresas são envolvidas nisso tudo, a JCJenson (que aqui tem posse dos humanos) e uma empresa de robótica desconhecida, essas duas empresas se juntaram e criaram o primeiro projeto de um robô operário, e por pura ganância, a JCJenson tomou o projeto que até então, era da outra empresa

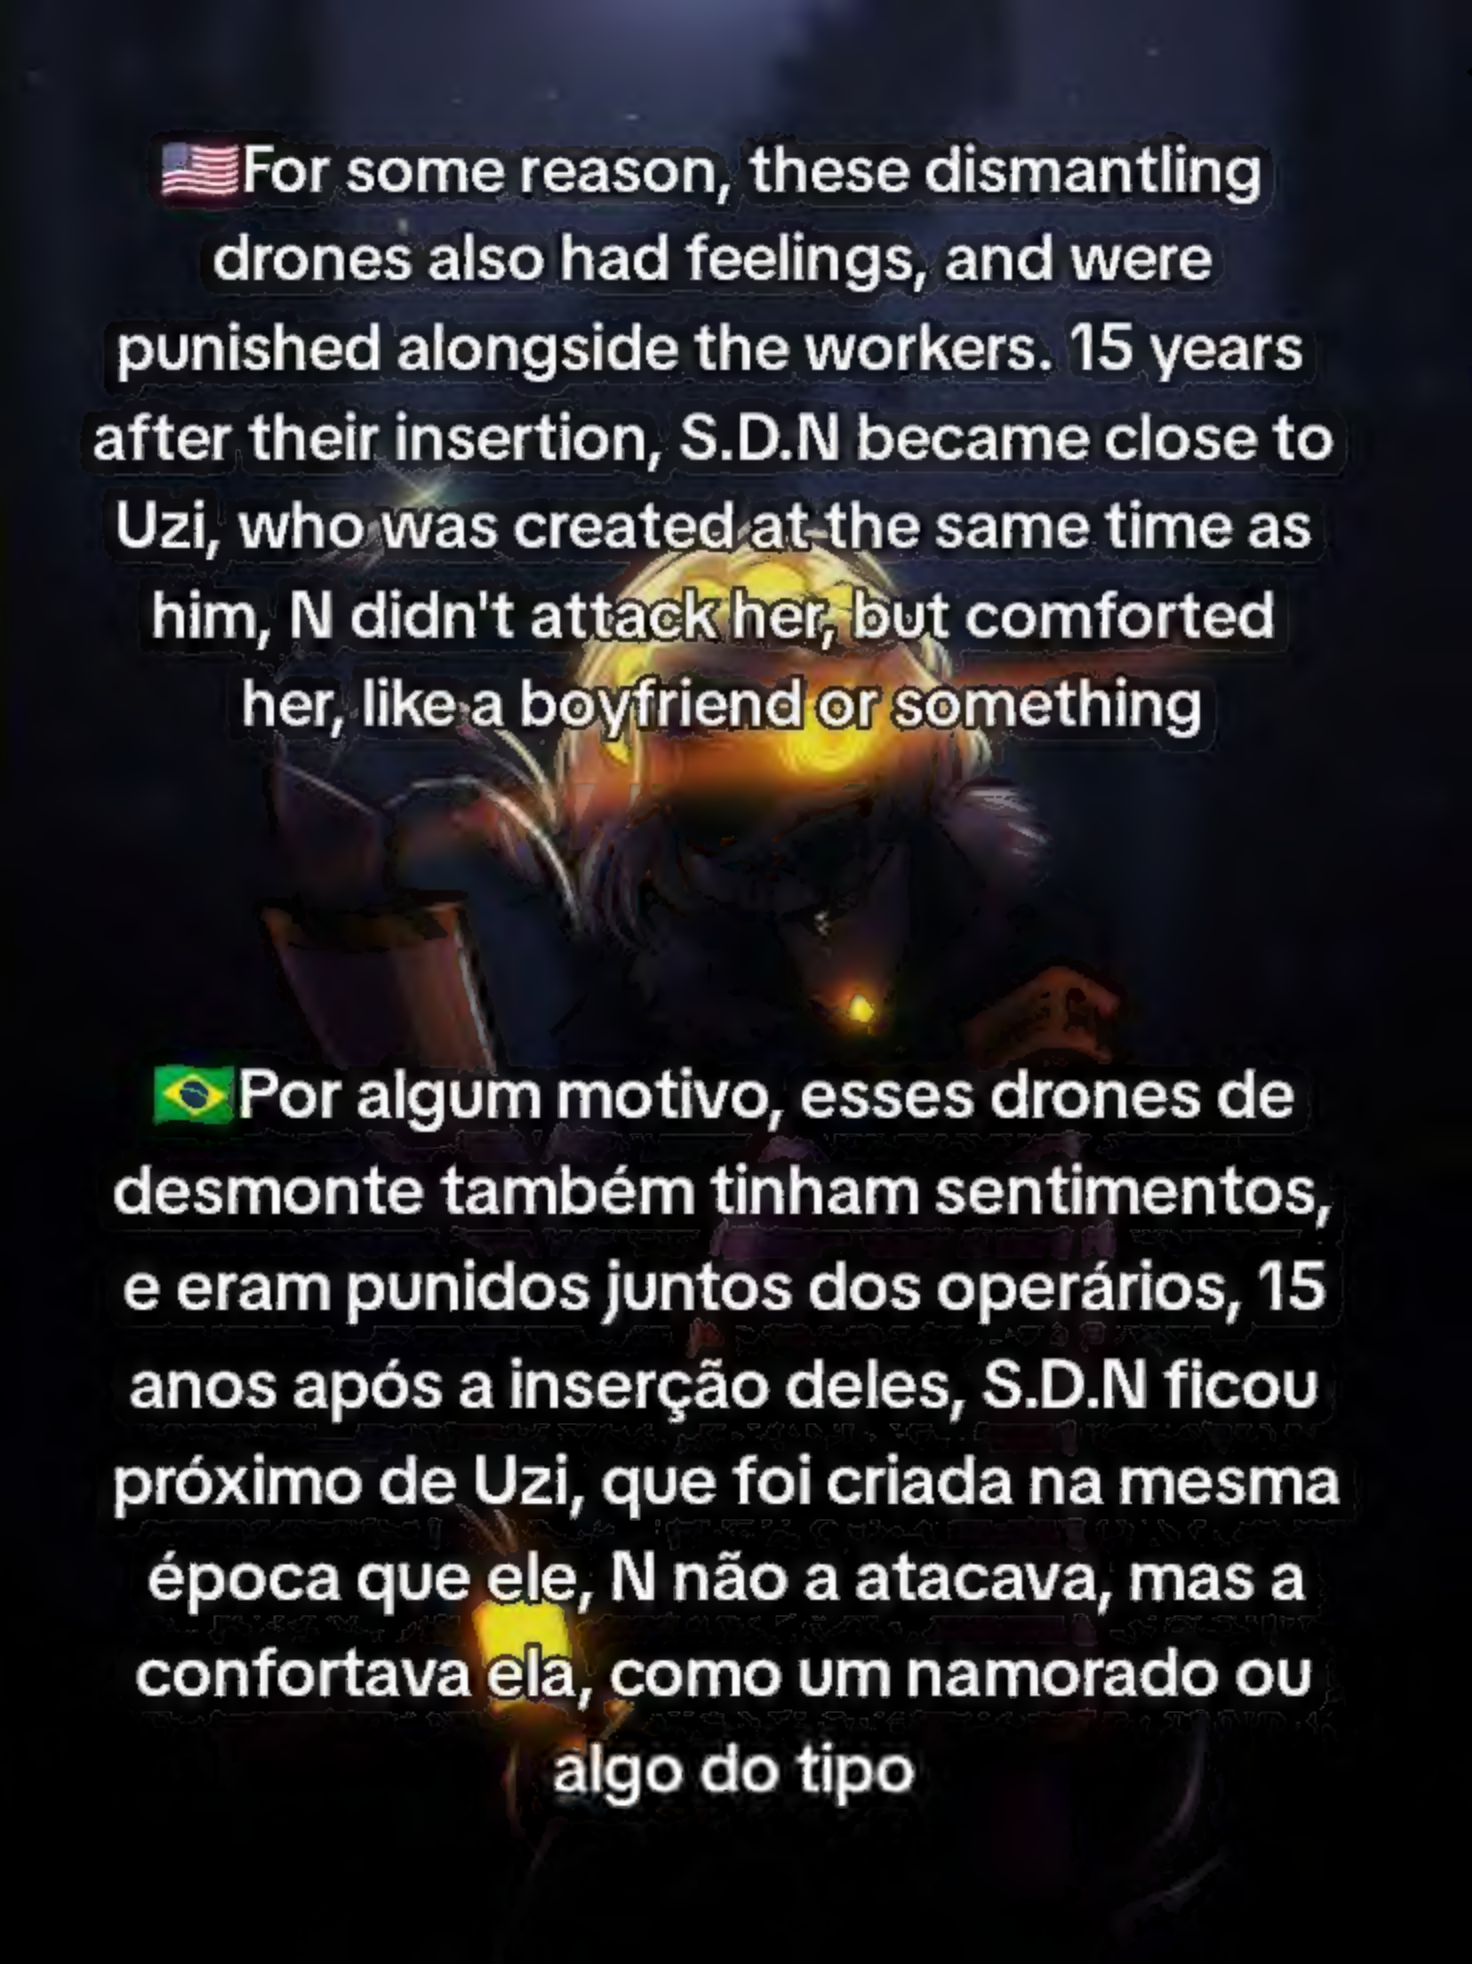


🇺🇸The companies separated, and then JCJenson, with the project in hand, created the oldest workers (Nori, Alice, Khan, Yeva, and even Makoto's parents), as chapter 1 says, they were forced to work to humans, and punished for stupid things, while the other company's whereabouts are unknown
🇧🇷As empresas se separaram, e então JCJenson com o projeto em mãos, criou os operários mais antigos (Nori, Alice, Khan, Yeva, e até os pais da Makoto), conforme o capítulo 1 diz, eram forçados a trabalhar para os humanos, e punidos por coisas estúpidas, enquanto o paradeiro da outra empresa é desconhecido
Fennyko

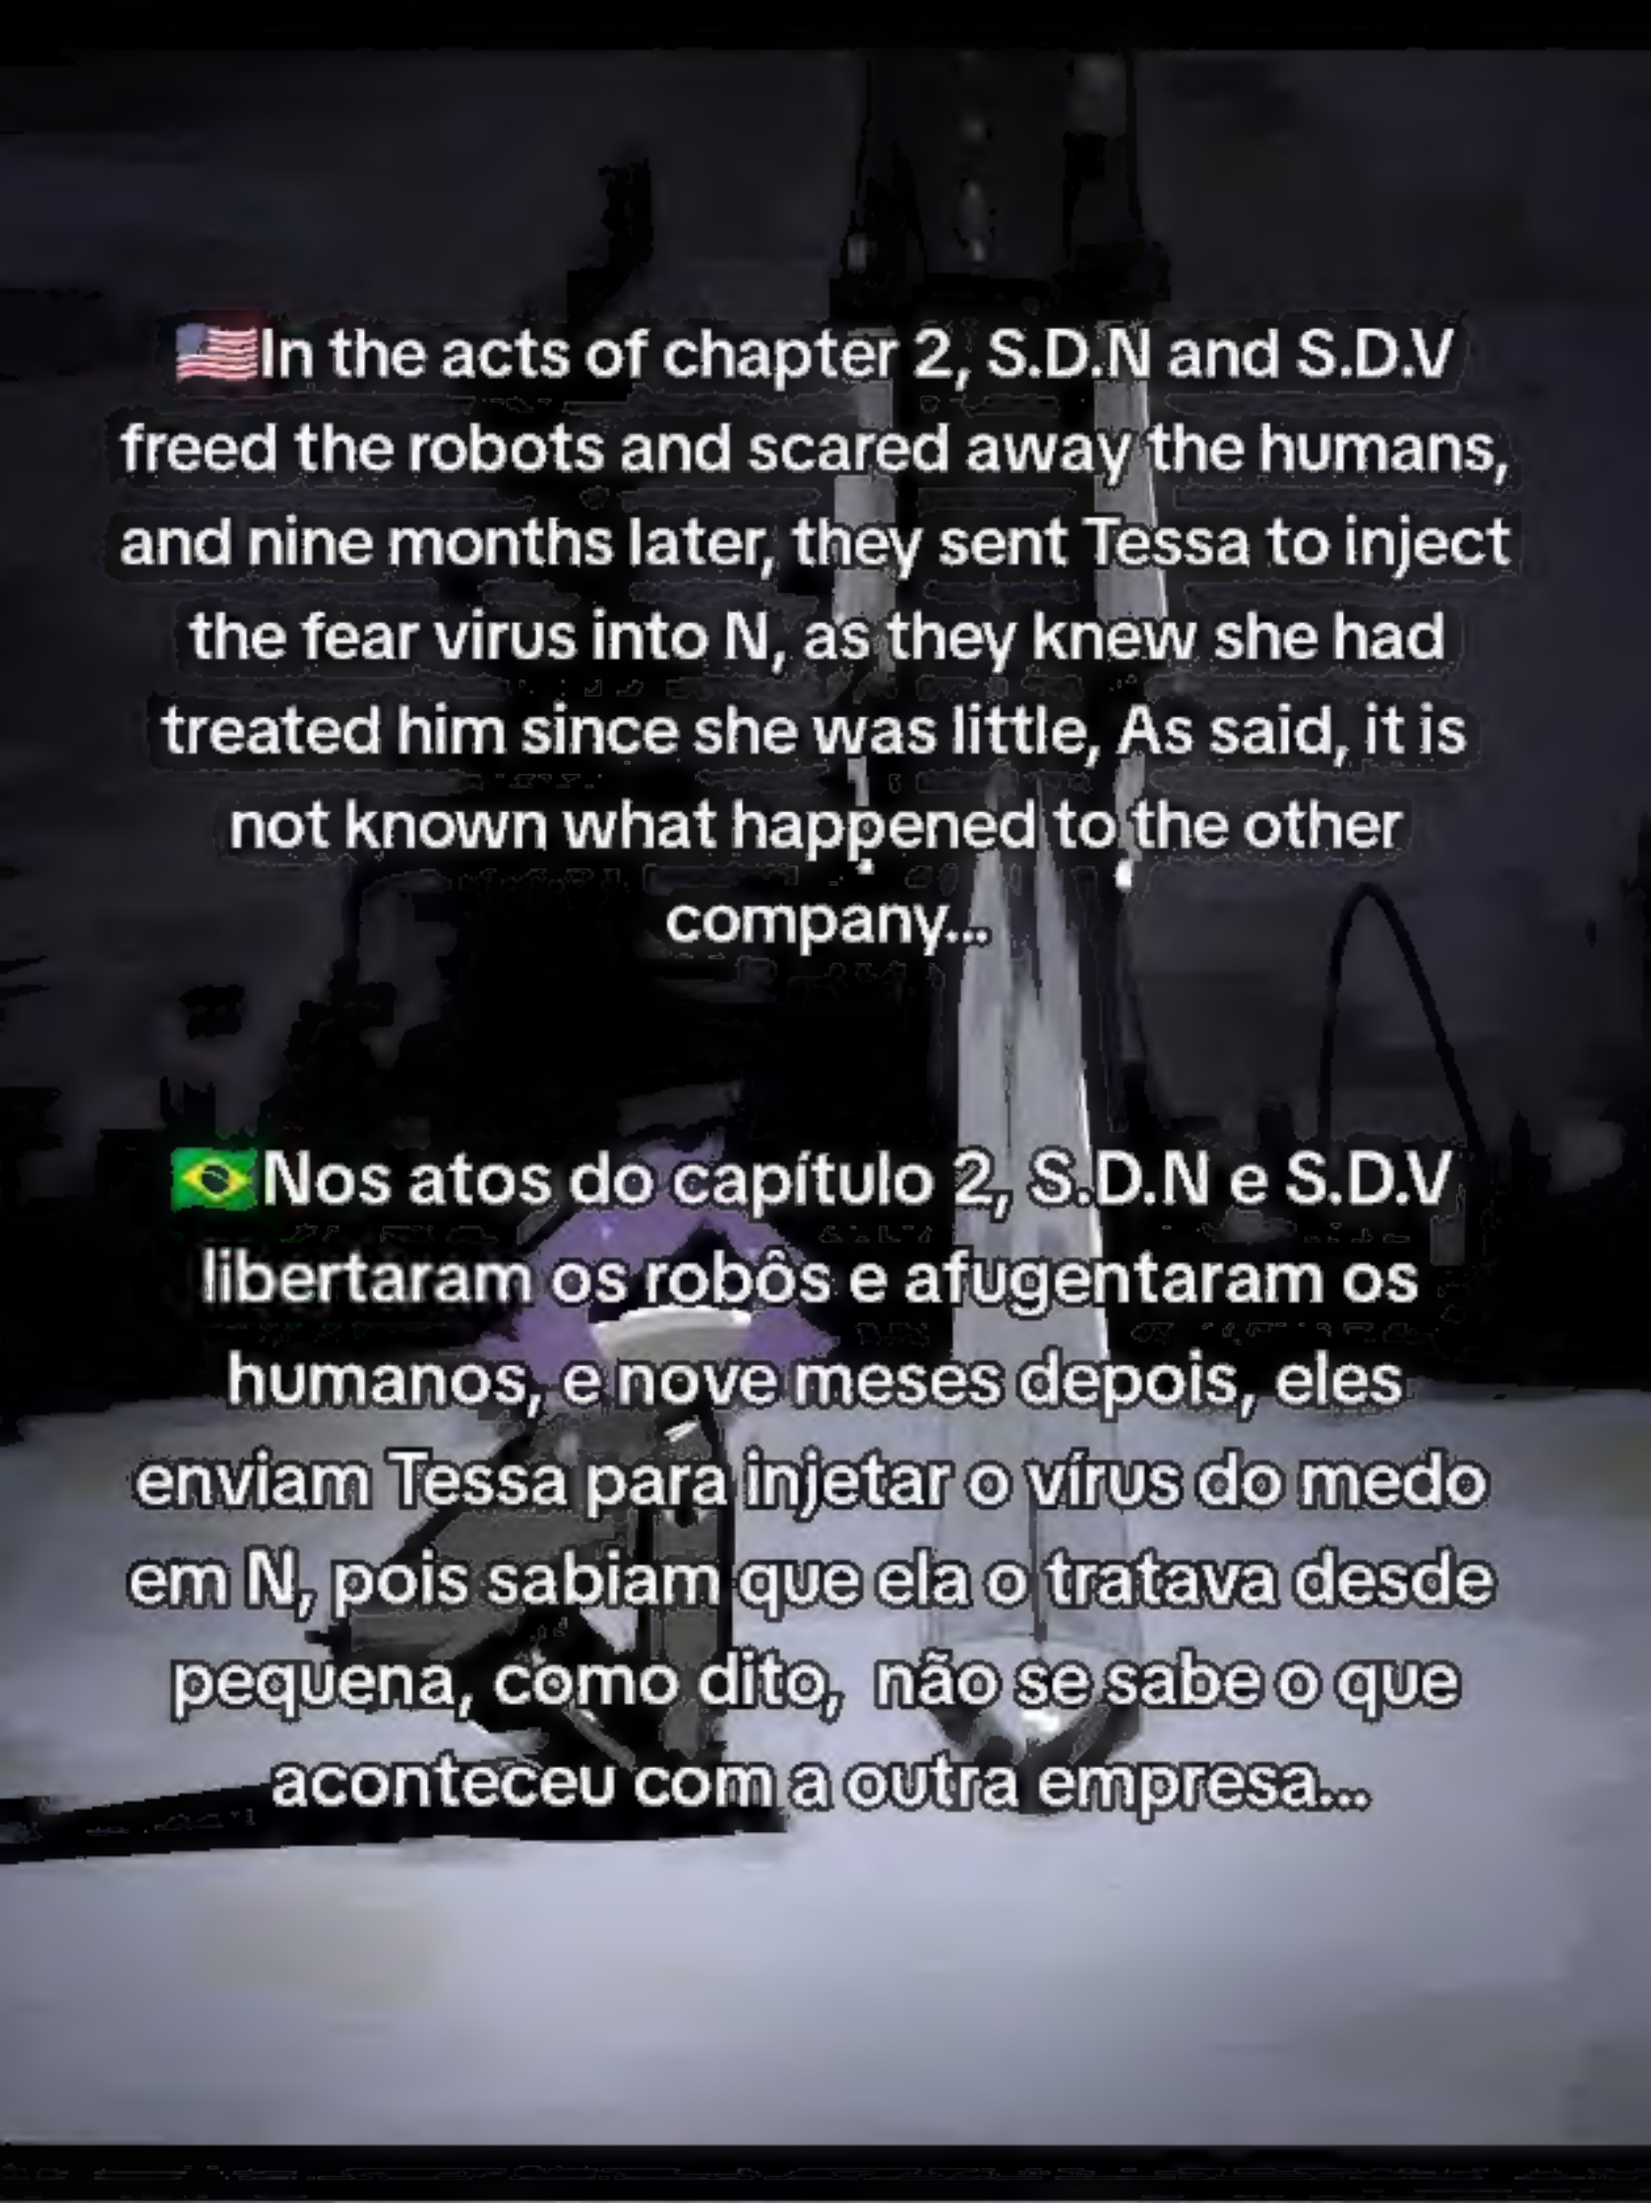


🇺🇸Several years after creating these robots, the humans at JCJenson noticed feelings in those machines, and discovered that they were developing their own robots (example, Nori and Khan with Uzi) To slow this down, they modified the workers' design and created S.D.J, S.D.N and S.D.V, the disassembly drones

🇧🇷Vários anos após a criação desses robôs, os humanos da JCJenson perceberam sentimentos naquelas máquinas, e descobriram que eles estavam desenvolvendo seus próprios robôs (como por exemplo, Nori e Khan com a Uzi), para retardar isso, eles modificaram o projeto dos trabalhadores e criaram S.D.J, S.D.N e S.D.V, os robôs de desmonte



🇺🇸For some reason, these dismantling drones also had feelings, and were punished alongside the workers. 15 years after their insertion, S.D.N became close to Uzi, who was created at the same time as him, N didn't attack her, but comforted her, like a boyfriend or something
🇧🇷Por algum motivo, esses drones de desmonte também tinham sentimentos, e eram punidos juntos dos operários, 15 anos após a inserção deles, S.D.N ficou próximo de Uzi, que foi criada na mesma época que ele, N não a atacava, mas a confortava ela, como um namorado ou algo do tipo



🇺🇸In the acts of chapter 2, S.D.N and S.D.V freed the robots and scared away the humans, and nine months later, they sent Tessa to inject the fear virus into N, as they knew she had treated him since she was little, As said, it is not known what happened to the other company...
🇧🇷Nos atos do capítulo 2, S.D.N e S.D.V libertaram os robôs e afugentaram os humanos, e nove meses depois, eles enviam Tessa para injetar o vírus do medo em N, pois sabiam que ela o tratava desde pequena, como dito, não se sabe o que aconteceu com a outra empresa...
